BUILDING DEPLOYMENT-READY FINANCE & ACCOUNTING PROFESSIONALS

PROGRAM OVERVIEW

KG Invicta Services is launching P2P training under its flagship learning brand, iAspire. Designed to simulate real production environments, iAspire provides hands-on training across ITES programs that are closely aligned with our managed services portfolio, helping learners build industry-relevant skills with practical exposure.

The program is specifically designed to create deployment-ready professionals in Finance & Accounting operations, bridging the gap between academic learning and real-world delivery expectations.

PROGRAM HIGHLIGHTS

Production-like **sandbox environment** simulating real delivery conditions

Hands-on training in **indexing and invoice processing**

Exposure to **global process variations** and **invoice formats**

Industry-aligned curriculum **mapped to enterprise requirements**

Trainer-led sessions with **practical, scenario-based** exercises

Certification from KG Invicta Services – **i-Aspire**

PROGRAM COVERAGE – P2P (ACCOUNTS PAYABLE)

ABOUT iASPIRE

iAspire is the learning and capability-building ecosystem of KG Invicta Services, designed to create deployment-ready talent aligned to real-world enterprise environments.

Built on the **HAI (Human + AI)** philosophy, iAspire goes beyond conventional training by combining domain knowledge, process understanding, and exposure to technology-led delivery models. It serves as a bridge between academic learning and industry expectations, enabling individuals to adapt to modern managed services environments with confidence and practical expertise.

ABOUT KG INVICTA SERVICES

KG Invicta Services (KGiS) is a next-generation IT and Managed Services organization delivering business transformation through a unique **Human + AI (HAI)** delivery model. We combine deep domain expertise, digital technologies, and AI-driven solutions to enable enterprises to optimize operations, enhance decision-making, and scale with agility.

Our capabilities span IT Services, Intelligent Automation, Finance & Accounting, Engineering, and Business Process Management, where we integrate human expertise with AI-led efficiencies to drive measurable business outcomes. With a strong focus on enterprise-grade delivery, KGiS partners with global organizations to build scalable, future-ready operations.
